

# User Guide

SUBJECT            **NDI Camera Set-up for Dual Delivery High**  
DATE                31 January 2025  
AUTHOR            Liane Joubert, Lecture Support Services Coordinator

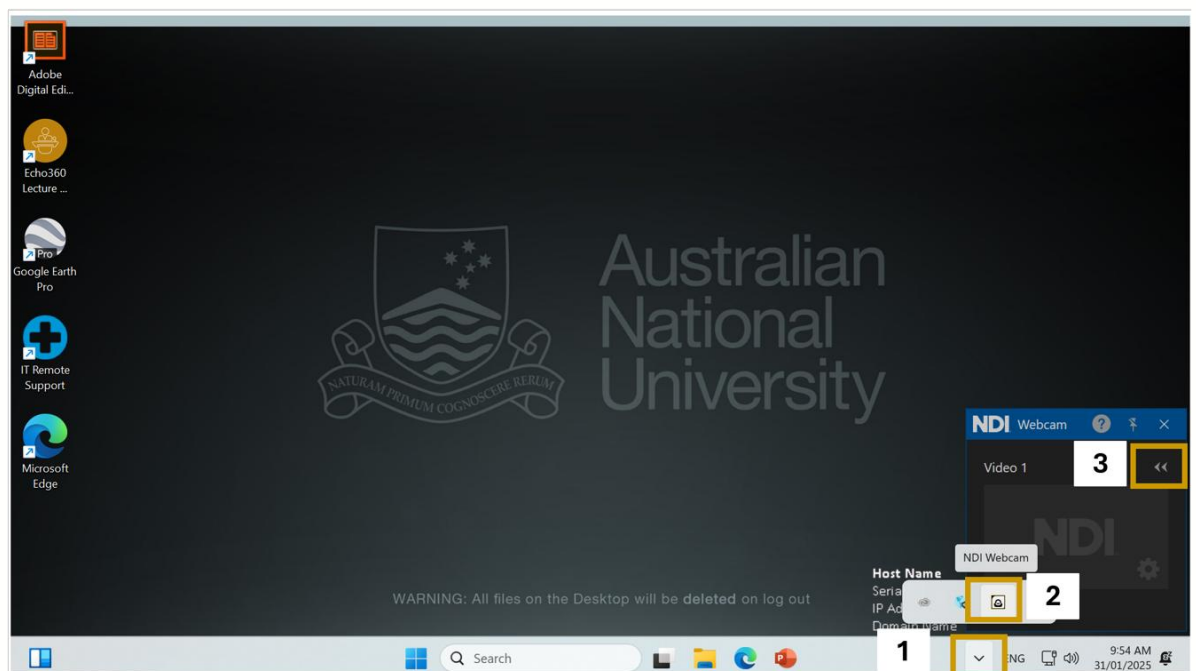

---

## Audience

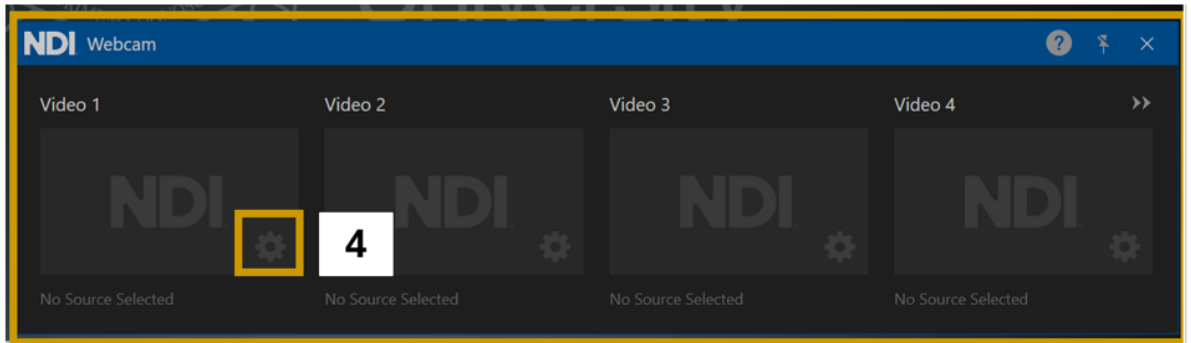

- Support staff
- Academics and Tutors planning to teach with Dual Delivery in one of the ANU Dual Delivery High spaces

## Guide

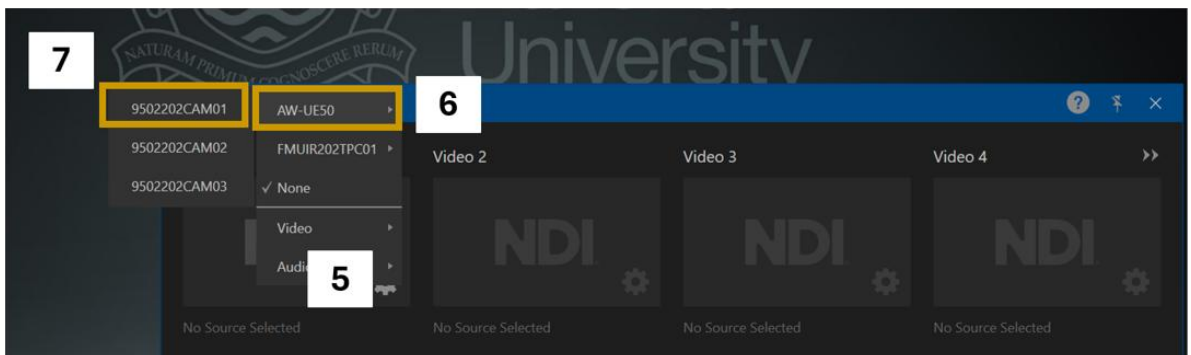

1. Once signed in to the Lecture PC, **click** on the **downward arrow** to the right of the task bar
2. Select the **NDI Webcam Icon**
3. Once the window opens, **click** on the **double arrow** pointing to the right to expand this window.

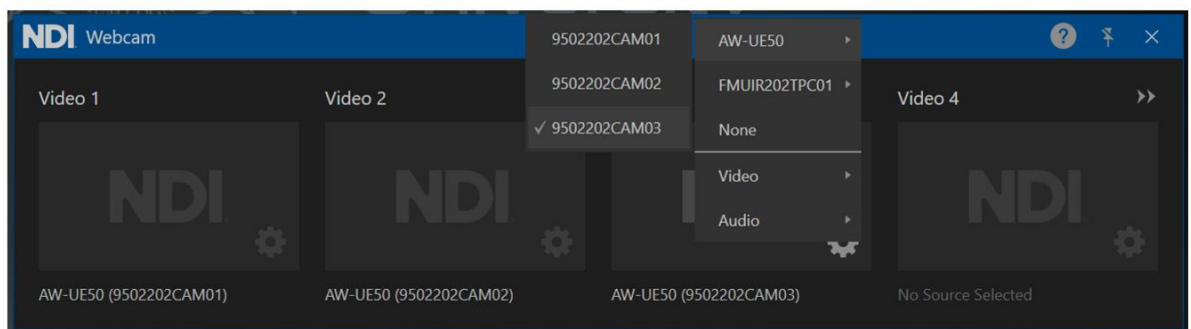

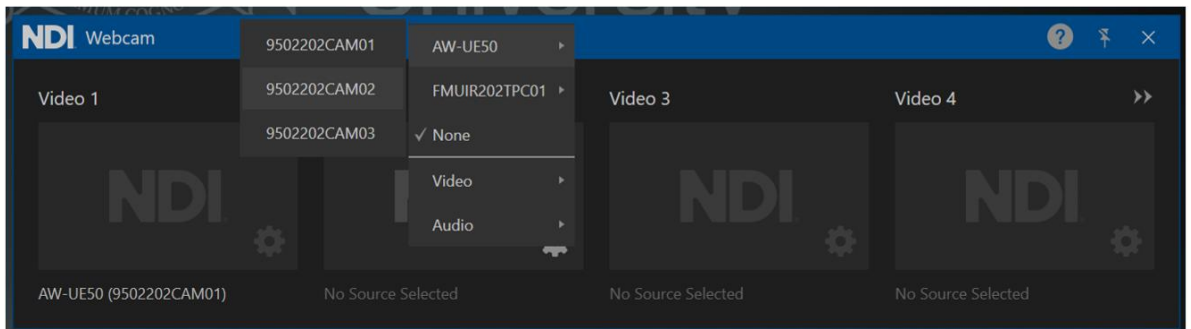

- Once the window expands, **click** on the **settings cog** in the Video 1 block

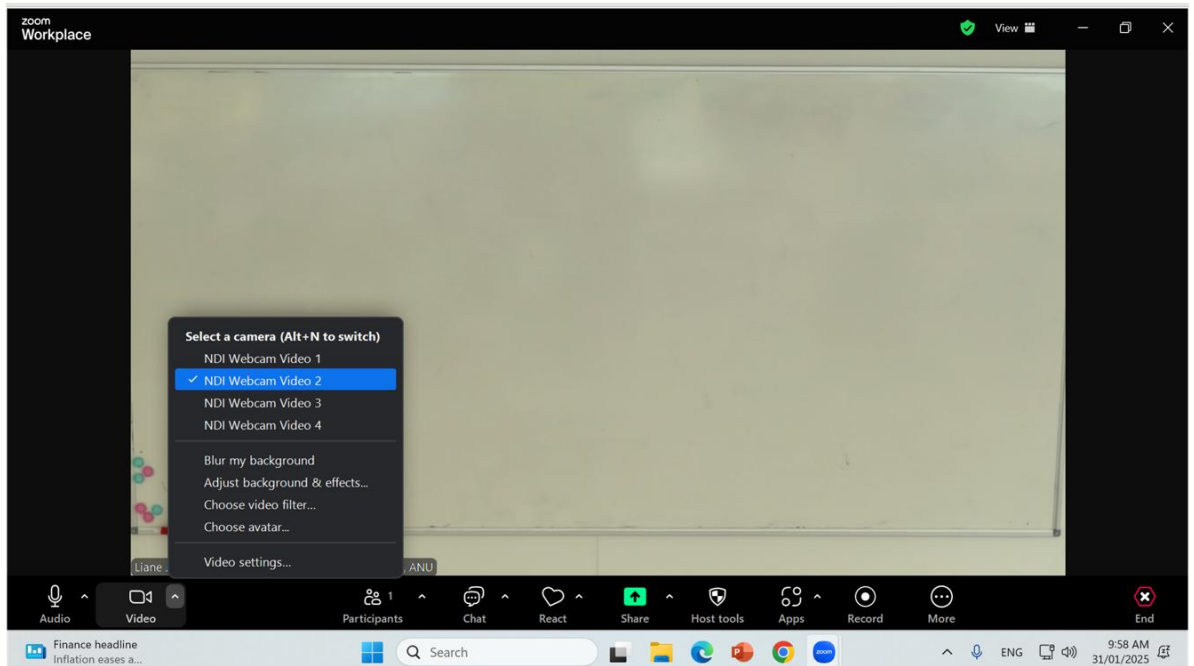

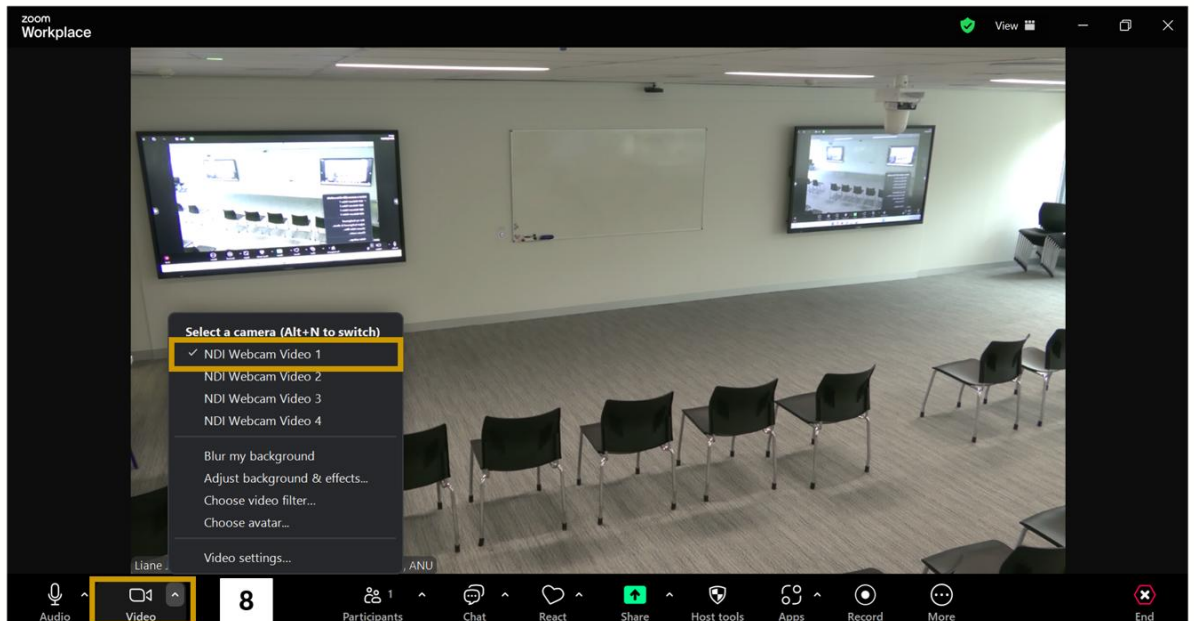

- A settings column will open
- Navigate to the **AW-UE50** option
- Select the **1<sup>st</sup>** option for Video 1.

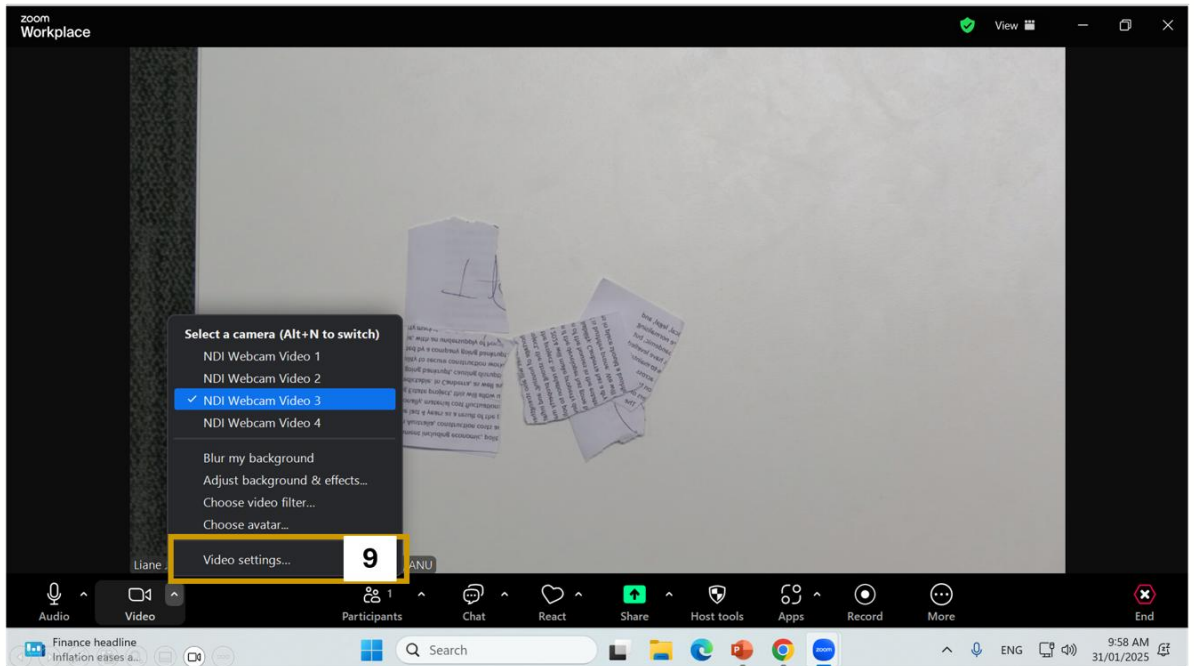

Repeat steps 4 to 7 for Video 2 and 3. Depending on how many NDI cameras are in the room. Some rooms use one camera for the presenter as well as whiteboard, while other rooms have a dedicated whiteboard capture camera.

8. These cameras will now be available as cameras in **Zoom/Teams** for selection. Simply navigate to your **Video settings** icon in the relevant application and select your preferred camera

9. If you want to use the **Document camera** or **Whiteboard camera**, ensure that your video is not **“Mirrored”**. Go to **Video settings**

10. Uncheck the **“Mirror my video”** box
